Installation and activation guide for Kaspersky Anti Virus

Download and Install the software:

1. **Access the Software:**

    - Please download the Kaspersky Anti Virus Software.

    - If you already installed the Kaspersky Anti Virus Software, please run the program and jump to «Activating Your Prodct» section in this guide.

2. **Installation Process:**

    - Once downloaded, run the installer and follow the prompts to install the selected software on your device.

Activating Your Product:

1. **Locate the Activation Section:**

    - Open the installed application(s) and locate the 'License: x days remaining' section, found in the bottom right corner of the window.

2. **Enter the Activation Code:**

    - Click on 'Enter activation code'. Type in the code from your order confirmation email or account.

3. **Activate the Product:**

    - Hit 'Activate' to enable the full features of the software.
